See the following steps:

O-Ones T-Tens H-Hundreds

Step: 1

```
  O  O
350 x 35
-------
   0
```

Multiply the digits in ones place
5 x 0 =0

Step: 2

```
   2
  HT   O
350 x 35
--------
  50
```

Multiply the digits in tens place
5 x 5 = 25
carry over 2 to hundreds place.

Step: 3

```
   2
   H   O
 350 x 35
---------
1750
```

Now multiply hundred place by digit in ones place.
5 x 3 = 15
15 + 2 = 17

Step: 4

```
 350 x 35
---------
1750
   *
```

Put * in ones place. Then multiply the number by digit in ten place as earlier.

Step: 5

```
   O  T
 350 x 35
---------
1750
  0*
```

3 x 0 = 0

Step: 6

```
   1
  HT  T
 350 x 35
---------
1750
 50*
```

3 x 5 =15
carry over 1 over to the hundreds place.
