A number that can be shown using a pattern of dots in a square using flowers or small balls will be a square number. We can arrange the dots by counting numbers as given below, that will make a square shape.

1 x 1 = 1	
2 x 2 = 4	
3 x 3 = 9	
4 x 4 = 16	

Observe the dots in the figures given below.

1	4	9	16	25

Do you know?

Square of number	Sum of digit of square
$1^2 = 1$	1
$(11)^2 = 121$	$1 + 2 + 1 = 4 = 2^2$
$(111)^2 = 12321$	$1 + 2 + 3 + 2 + 1 = 9 = 3^2$
$(1111)^2 = 1234321$	$1 + 2 + 3 + 4 + 3 + 2 + 1 = 16 = 4^2$
