4 Science in Everyday Life

Learning Objectives

G50NL

After completing this lesson, students will be able to:

- know about scientists from Tamil Nadu.
- understand the reason for the blue appearance of the sky.
- differentiate reversible and irreversible processes in daily life.
- get awareness about waste materials generated in home and school environment.

Introduction

Science has helped us to find solution to many of our problems. It has shaped our daily life also. The world we are living in is not the same as before. It is changing everyday, in fact every hour. We see a lot of changes around us. Some of them are reversible and some of them are irreversible. Irreversible changes like burning of wastes pollute our home and school environment. We need to know about waste management and proper disposable of wastes. Let us study about them in this lesson.

I. Scientists from Tamil Nadu

Tamil Nadu has a long history of science since ancient times. Scientific concepts can be seen in ancient Tamil literatures. Tamil Nadu has produced many scientists who have contributed to the world of science. The following table gives the names of some of the scientists from Tamil Nadu and their contributions.
