2 Dr. A.P.J. Abdul Kalam (1931-2015)

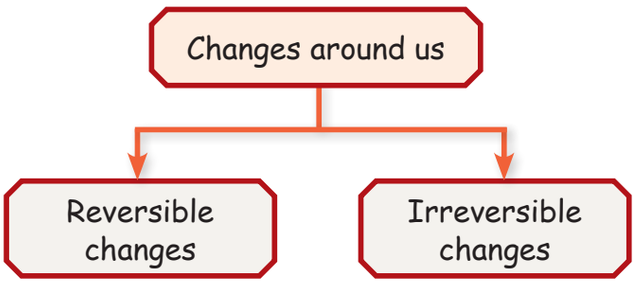

Avul Pakir Jainulabdeen Abdul Kalam was an aeronautical scientist. He was born on 15th October, 1931 in Rameshwaram, Tamil Nadu. He got his Bachelor of Science (B.Sc) degree from St.Joseph's College, Trichirappalli in 1954. In 1960, he got his degree in Aeronautical Engineering from Madras Institute of Technology.

He was involved in India's missile development programme and thus came to be known as Missile Man of India. He also served as the President of India (2002-2007) and was widely referred to as the People's President. He was awarded Padma Bhusan in 1981, Padma Vibhusan in 1990 and Bharat Ratna in 1997. He has written many books like Wings of Fire, India 2020 and Ignited minds.

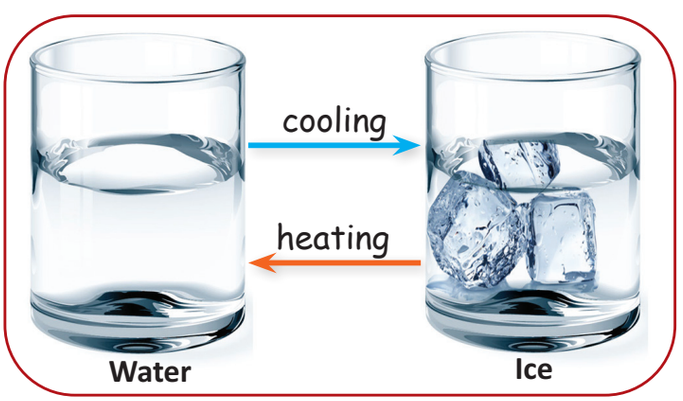

II. Changes Around Us

Change is the transition of a substance from one form to another. We see many changes around us. We see changes like day and night, summer and winter and so on. We also see changes in objects. Growth of a tree, ripening of fruits, falling of leaves are some of the changes taking place around us. You can observe changes in you also. Your height and weight increase, hair and nail grow and you have grown up as a whole compared to last year. Changes around us can be classified as reversible and irreversible changes.

1 Reversible Changes

Changes which can be reversed are called reversible changes. If you keep water in the freezer for some time, it is transformed into ice. If it is taken out, it becomes water again. This is a reversible change.
